Russia seems anxious to decide the difficulties of Corea. Her decision will be something like that of the monkey that arbitrated the dispute between the cats over a piece of cheese. It will be recalled that the monkey got the cheese.

Corbett met with a frosty atmosphere in London and his company returned on a cattle ship. The English people like to see prize fighters fight and not take to the stage, and in England he was regarded as merely over there to avoid Peter Jackson.

A serious cutting affray occurred at North Fork, Elko county, Sunday. Two Mexicans named Domingus and Martinez quarrelled, when the former stabbed the latter in the abdomen, inflicting a probably fatal wound. Domingus mounted his horse and escaped.

Ex-Senator Gignox of Lyon was in this city yesterday. He reports nothing but straight silver men in Lyon county. The main fight at the primaries next Wednesday will be between the Westerfield and Shaw factions and it will be a very bitter one. These gentlemen are both candidates for State Treasurer.

It now turns out that the degrading of the Viceroy of China by removing his yellow jacket, was done in pursuance of his own request. Such things are common in China, and great men frequently ask to be disciplined to show proper humility before the people. It don't hurt the dignitaries and the people like it.

It is to be hoped that the next time Uncle Sam sends out his troops, it will not be to aid a corporation headed by such a hypocrite as "Mark-kee de Pullman"—the man who in Nevada and other states has run his palace cars over 10 years without paying a cent of taxes or been assessed for the same.—Silver State.

M. Ragan, one of the Supreme Court Commissioners of the State of Nebraska, has caused a sensation by openly advising the farmers of Nebraska to refuse to pay a cent of their indebtedness to parties in the East for a year. Judge Ragan assigns the drought and total crop failure as his reason for this remarkable advice.

Governor Markham's "Boys in blue" having about got through with their picnic here at the expense of the State, will tonight return home to their marbles and kites and hoops. Uncle Sam's real soldiers will remain with us for a while longer to protect the Pullmans from cyclones, earthquakes and McGlashans.—Truckee Republican.

President Carnot's death occurred on the eve of the marriage of his son, Francis, to Mlle. Marguerite Chissis, daughter of a French Senator from the Alpes Maritimes. The wedding, as now arranged, will take place the latter part of August, and will be celebrated in the strictest privacy at Grasse, where the bride's father resides.

### Will Not Hang.

Alpheus Vaughn, sentenced to be hanged at Austin tomorrow, for the murder of the Leiser boys, will not stretch hemp just yet, as the Supreme Court has granted a stay of execution until such time as an appeal can be made and determined. The Sheriff of Lander county was notified to that effect by Supreme Court Clerk Joseph, yesterday, by telegraph.

## THAT MICHIGAN PLANK.

AS VIEWED BY BARTINE AND GRAY.

And Then Dissected by Mr. Moffitt of the Oakland Times.

The following is the Michigan silver plank:

We believe in the use of gold and silver as money metals to be maintained in circulation on a perfect equality and interconvertibility.

We recognize the so-called silver question as one of the paramount issues of the day and believe that the people of this State can and do look to the Republican party as the only party that can give a wise adequate solution of the problem. We therefore pledge the Republican party of Michigan to use every effort in its power to restore silver to its historic position in the United States as a money metal. We pledge this in the belief that permanent prosperity will not be assured or justice done until silver takes its place by the side of gold as one of the two great money metals of the world.

Regarding the above resolution Messrs. Bartine and Gray express themselves as follows:

"The resolution declares the belief that there will be 'no return of prosperity to our country until silver shall be restored to its full use and highest position. This a wonderfully impressive utterance. To the average mind it carries infinitely more weight than a naked proclamation in favor of 16 to 1.

Now let us see how these 'wonderfully impressive utterances' impress editor Moffitt of the Oakland Times who is regarded as one of the brainiest financial writers on the coast.

Under the suggestive head of 'Silver and Soft Solder' he lays the double dealing resolution in the following clear cut language:

The San Francisco Chronicle has been representing that the straddling financial plank of the Michigan Republican platform means free coinage. By reading the proceeding of the convention in the papers which have just come to hand we see that a resolution declaring for the free coinage of gold and silver at the ratio of 16 to 1 was voted down.

Does this look like free coinage? Can people forever be humbugged by the representation that platforms which dodge in every direction to escape a direct statement on the coinage question mean free coinage? Every convention that does not specifically declare in favor of free coinage is against it, and every man of common sense is aware of it. A convention that is in favor of free coinage is not going to indulge in a lot of twaddle which merely obscures intentions and leaves unstated the wish of the party. The object of these Delphian expressions on the silver question is deception. Such a platform as that adopted by the Michigan Republicans is a cowardly and dishonest evasion of the issue. Every man who is not a primordial idiot knows that the financial question in this country is free coinage or not. International bimetalism is a thing apart, and is dependant upon the action of other nations and not upon what our Congress may do. In California the Republicans have declared in favor of free coinage. In no other State have they done so. The Republicans of Nevada, Idaho, Montana, Colorado and possibly Wyoming, Washington and South Dakota will follow the example of their Californian brethren and that is all. In all the other States the Republican party is against free coinage, though in several the platforms adopted have held out vague promises which are as dishonest and delusive as the marks on the cards of a three-card monte sharp. We do not believe in free coinage, but we also do not believe in political bunko. After striking down silver whenever the opportunity presented itself for the past twenty years, the Republicans are now trying by treacherous devices to again lure the silver men into their camp. Steadily the silver producing States have gone on voting the Republican ticket, and the Republicans have steadily gone on kicking silver down stairs and regularly coming around with a fresh stock of professions. There must be some limit to this kind of humbug somewhere. Human credulity cannot forever imagine kicks as sugar plums.
